Factory & Export Support

- Machine configuration recommendation by floor type, dust type, project area and voltage requirement.
- Logo and color customization based on confirmed distributor or project order details.
- Export packing support with carton or wooden/steel-edge case options.
- Certificate and technical document support for import review and procurement approval.

PRODUCT RANGE

Floor Scrubbers & Road Sweepers

Recommended for large hard-floor cleaning, water recovery, industrial parks, property maintenance and daily facility cleaning.

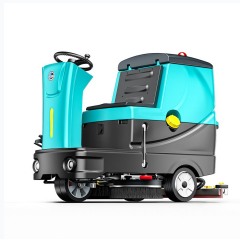

FLOOR SCRUBBER
BS-B50

Walk-behind Floor Scrubber

Compact walk-behind scrubber for commercial and industrial hard-floor cleaning.

Typical use: Factories, warehouses, supermarkets, schools, property cleaning.

FLOOR SCRUBBER
BS-XJ580

Ride-on Floor Scrubber

Ride-on scrubber dryer for larger indoor cleaning areas and daily facility maintenance.

Typical use: Large workshops, logistics centers, malls, underground parking.

FLOOR SCRUBBER
BS-XJ860

Ride-on Double-brush Floor Scrubber

Double-brush ride-on scrubber with wider cleaning width for efficient floor washing.

Typical use: Industrial plants, distribution centers, public buildings.

ROAD SWEEPER
BS-S1200

Ride-on Industrial Floor Sweeper

Ride-on sweeper for industrial parks, warehouses, factory roads and outdoor areas.

Typical use: Warehouses, parks, factory roads, outdoor yards.

ROAD SWEEPER
BS-S1400

Road Sweeper

Road sweeper for property maintenance, municipal cleaning and large outdoor sites.

Typical use: Municipal roads, campuses, industrial parks, property maintenance.

PRODUCT RANGE

Industrial Vacuum Cleaners

Electric, cordless and heavy-duty industrial vacuum solutions for dust, residue, concrete sites, metal processing and workshop cleaning.

**INDUSTRIAL VACUUM****BS-8010****Industrial Vacuum Cleaner**

Industrial vacuum cleaner for factory floors, workshops and production residue.

Typical use: Dust, residue, wet and dry cleaning, workshop maintenance.

**INDUSTRIAL VACUUM****BS-90DP****Cordless Industrial Vacuum Cleaner**

Battery-powered dust extraction for flexible industrial cleaning without cable limitation.

Typical use: Construction sites, factory floor dust, flexible site cleaning.

**INDUSTRIAL VACUUM****BS-100DP****Cordless Industrial Vacuum Cleaner**

Cordless dust extractor for construction sites, concrete dust and industrial cleaning.

Typical use: Concrete dust, descaling residue, site cleaning, renovation work.

**INDUSTRIAL VACUUM****BS-V80****Heavy Duty Industrial Vacuum Cleaner**

Heavy-duty industrial vacuum for metal scraps, production residue and continuous-duty work.

Typical use: Metal processing, production lines, heavy industrial residue.

**INDUSTRIAL VACUUM****BS-MC-3000****Pulse-jet Heavy-duty Industrial Vacuum Cleaner**

3.0kW pulse-jet industrial vacuum for continuous factory cleaning and automatic filter cleaning.

Typical use: Dust extraction, workshop residue, production-line support.

**INDUSTRIAL VACUUM****BS-MC-4000****Pulse-jet Heavy-duty Industrial Vacuum Cleaner**

4.0kW heavy-duty vacuum with automatic pulse-jet filter cleaning for non-stop operation.

Typical use: Industrial dust, metal processing residue, continuous-duty cleaning.

**INDUSTRIAL VACUUM****BS-MC-5500****Pulse-jet Heavy-duty Industrial Vacuum Cleaner**

5.5kW high-suction industrial vacuum for heavy dust and factory production residue.

Typical use: Heavy industrial cleaning, production workshops, equipment matching.

**INDUSTRIAL VACUUM****BS-MC-7500****Pulse-jet Heavy-duty Industrial Vacuum Cleaner**

7.5kW high-output pulse-jet industrial vacuum for demanding 24-hour cleaning tasks.

Typical use: Large factories, heavy residue, continuous-duty dust collection.

PRODUCT RANGE

High-pressure Cleaning Equipment

Electric high-pressure cleaners, three-phase industrial machines, fuel-powered pipe dredging machines and ride-on high-pressure cleaning vehicles.

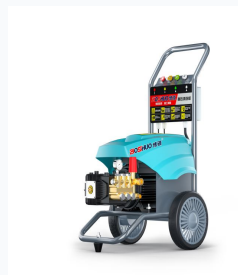

HIGH-PRESSURE CLEANING

BS-HPC-2800

High-Pressure Cleaner

Compact 220V high-pressure cleaner for routine commercial and industrial washing.

Typical use: Workshops, equipment washing, facility cleaning.

HIGH-PRESSURE CLEANING

BS-HPC-2200 / 3000

High-Pressure Cleaner

220V high-pressure cleaning equipment for workshops, facilities and vehicle washing.

Typical use: Vehicle washing, commercial cleaning, industrial surfaces.

HIGH-PRESSURE CLEANING

BS-HPC-4000 / 5500 / 7500

Three-phase High-Pressure Cleaner

380V industrial high-pressure cleaner for continuous-duty cleaning applications.

Typical use: Heavy-duty washing, industrial facilities, stubborn contamination.

HIGH-PRESSURE CLEANING

BS-FPD Series

Fuel-powered Pipe Dredging Machine

Gasoline or diesel powered pipe dredging equipment for high-pressure pipeline cleaning.

Typical use: Pipeline maintenance, drainage cleaning, municipal service.

HIGH-PRESSURE CLEANING

BS-RHPC-60

Ride-on High-Pressure Cleaning Vehicle

Ride-on high-pressure cleaning vehicle for large outdoor areas, roads and municipal cleaning.

Typical use: Roads, public areas, outdoor squares, municipal cleaning.

REAL FACTORY STRENGTH

Factory Production & Export Packing

A dedicated factory proof page helps importers and distributors quickly understand that BOSHUA is a real manufacturing and export-support supplier.

Certificates & Export Documentation

CE Documentation

**ISO9001
Approved**

**RoHS
Compliant**

Material compliance
communication support
for import projects.

Export Packing Files

Photos, packing details and shipping information can be confirmed before delivery.

CE Certificate

Certificate documentation support for import review and project procurement.

HOW WE WORK

From Model Selection to Export Shipment

1**Send Inquiry**

Tell us the floor type, dust or waste type, cleaning area, quantity, voltage and destination.

2**Get Solution**

Our team recommends suitable models and prepares a tailored quotation.

3**QC & Production**

Machine configuration, photos and key checks are handled before shipment.

4**Packing & Shipping**

Export packing and delivery terms are confirmed according to the selected trade method.

Item	What to provide
Machine type	Floor scrubber, sweeper, industrial vacuum cleaner or high-pressure cleaner.
Application	Floor area, dust/waste type, wet or dry use, indoor or outdoor site.
Power / voltage	Local voltage and plug requirement, battery or fuel preference if applicable.
Order plan	Quantity, destination country, packing preference and target delivery time.

Send Your Inquiry

We will recommend suitable models and prepare export quotation details.
